- High precision fibre-optic units
- Switching frequencies of up to 8000 Hz
- Working ranges of up to 2000 mm
- Variants with LED display, switching and analogue outputs
- Setting via teach-in
- Comprehensive range of light guides

SOE4-FO-L-... with LED

SOE4-FO-D-... with LED display

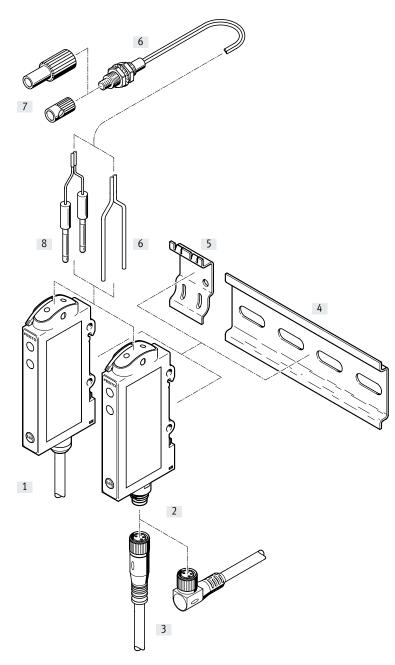

Product combination SOE4, SVE4, SDE3

1) For information about the area of use, see the EC declaration of conformity at: www.festo.com/sp → Certificates.

If the devices are subject to usage restrictions in residential, commercial or light-industrial environments, further measures for the reduction of the emitted interference may be necessary.

2) Corrosion resistance class CRC 4 to Festo standard FN 940070

Particularly high corrosion stress. Outdoor exposure under extreme corrosive conditions. Parts exposed to aggressive media, e.g. in the chemical or food industries. Such applications may need to be safeguarded by special tests (ightarrow also FN 940082), using appropriate media.
